\*Most Xicato Channels are IP65 ready with proper sealant applied around the end caps to completely seal the XFL inside the channel.

Xicato designs and delivers one of the broadest portfolio spot and linear light sources and electronics that enable architects, designers and building managers to create beautiful, smart spaces in which people love to live and work. With thousands of installations around the globe, Xicato continues to be a leading supplier of high quality lighting solutions. Xicato is defining the future of intelligent light sources by integrating electronics, software and connectivity. Founded in 2007, Xicato has offices in China, Europe and the U.S., with it's headquarters based in Silicon Valley.

## Technical Specification

### Application:

- Ambient lighting of architectural niches located a short distance from the wall
- The light is directed to the ceiling

### Mounting:

- Using screws appropriately selected for the mounting surface

### Additional information:

- Can be mounted horizontally or vertically
- The light source is placed in the easily disassembled lighting fixture
- This set of two extrusions is designed for recess illumination purposes
- The set consists of a mounting strip and an extrusion
- The complete set enables the parallel direction of light to the wall, facing up
- The included strip is step-shaped, which makes possible drywall edge mounting
- The lower edge of this strip is an extension of the recess, and once sealed, forms a thin aesthetic edge
- This extrusion holds a single 10.8 mm (0.42") max. wide LED.
- This strip enables the extension of the drywall recess and serves as a horizontal fixing element for corresponding extrusion
- This mounting strip is drywall mounted using mounting screws

### Note:

- Prior to mounting, the strip must be pre-drilled to avoid unwanted deflection
- This manual provides all details of mounting methods and direction of screw mounting
- Once mounted, seal the lower edge of the strip
- Rigid mounting of extrusion can be performed with a silicone cord (included in the set)

Turn off LED lights during peak day light hours in outdoor applications to avoid excessive heat buildup which will result in diminished LED life.

## Compatible Lenses

### XCC-L-PRO-CL Universal Clear - Pro

**PRO  
CL**  
91%

#### Description

Easy snap-in lens allows for simplified field installation measuring 13mm wide and 4mm in height with increased UV resistance. Transmits 91% light.

SKU				
Product	Collection	Name Code	Surface Code	Length
XCC	L	PRO	CL	1
				2

### XCC-L-PRO-FR Universal Frosted - Pro

**PRO  
FR**  
80%

#### Description

Easy snap-in lens allows for simplified field installation measuring 13mm wide and 4mm in height. Increased UV resistance with 80% light transmission in the frosted version.

SKU				
Product	Collection	Name Code	Surface Code	Length
XCC	L	PRO	FR	1
				2

### XCC-L-UNV-CL Universal Clear

**UNV  
CL**  
85%

#### Description

Basic 13mm wide and 4mm in height lens that is compatible with most of Xicato's channels, not UV resistant so best for indoor applications. Transmits 85% light.

SKU				
Product	Collection	Name Code	Surface Code	Length
XCC	L	UNV	CL	1

## Compatible End Caps

### XCC-E-COVE-NA-NC-STD

#### Description

Basic PP end cap in gray. High resistance to damage. Will not corrode. Simple assembly. Aesthetically finishes the extrusion.

SKU			
Product Number	Material	Color	UV Resistant
XCC-E-COVE-NA-NC-STD	PP	GREY	NO

## Compatible Mountings

### XCC-M-X180-SA-XYZ

#### Description

Simple mounting bracket for straight and angular channels. Can be used for stabilizing channels combined into strings or polygonal arrangements.

SKU			
Product Number	Thickness	Material	Color
XCC-M-X180-SA-XYZ	1.2mm	STEEL	STEEL GREY

## Required Parts

Extrusion (A)

Mounting strip (B)

Cover (C)

End cap (D)

## Required Tools

- Drill
- Screwdriver

Silicone cord (E)

LED strip (F)

## Important

- All LED strips should be connected to a 24 V power supply
- The mounting instructions present the basic form of assembly. More methods and related accessories can be found at [www.Xicato.com](http://www.Xicato.com)

## Mounting Instructions

1

Feed the power cable and attach the mounting strip (B) to the surface with screws.

2

Feed the power cable. Mount the LED strip (F) and insert the cover (C) and end cap (D).

## Mounting Instructions (Continued)

**3**

Connect power and assemble the extrusion (A) with the mounting strip (B).

**4**

Feed the silicone cord (E) into the hole.

**5**

After mounting the extrusion, apply plaster finish, smoothen and paint the surface.
