

Xicato Xmesh Controls Network

Xicato's Bluetooth® Lighting Controls are installed all over the world and integrated with a range of luminaires and building management systems. They deliver cost savings from installation through operation, and provide scene setting capabilities that are second to none. Smart controls enable building energy efficiencies, reduced maintenance and operational costs, resulting in a more productive and comfortable environment.

XAD Drivers

- AC to DC Driver offers flicker free dimming control
- Up to 10-year warranty

XIS Sensors

- Transmit sensor data over the BLE network
- Sense motion, ambient light, temperature, and relative humidity

XSW Switches

- Programmable switch that can be field installed
- Converts a standard 0-10V dimming switch into a sophisticated Bluetooth controller

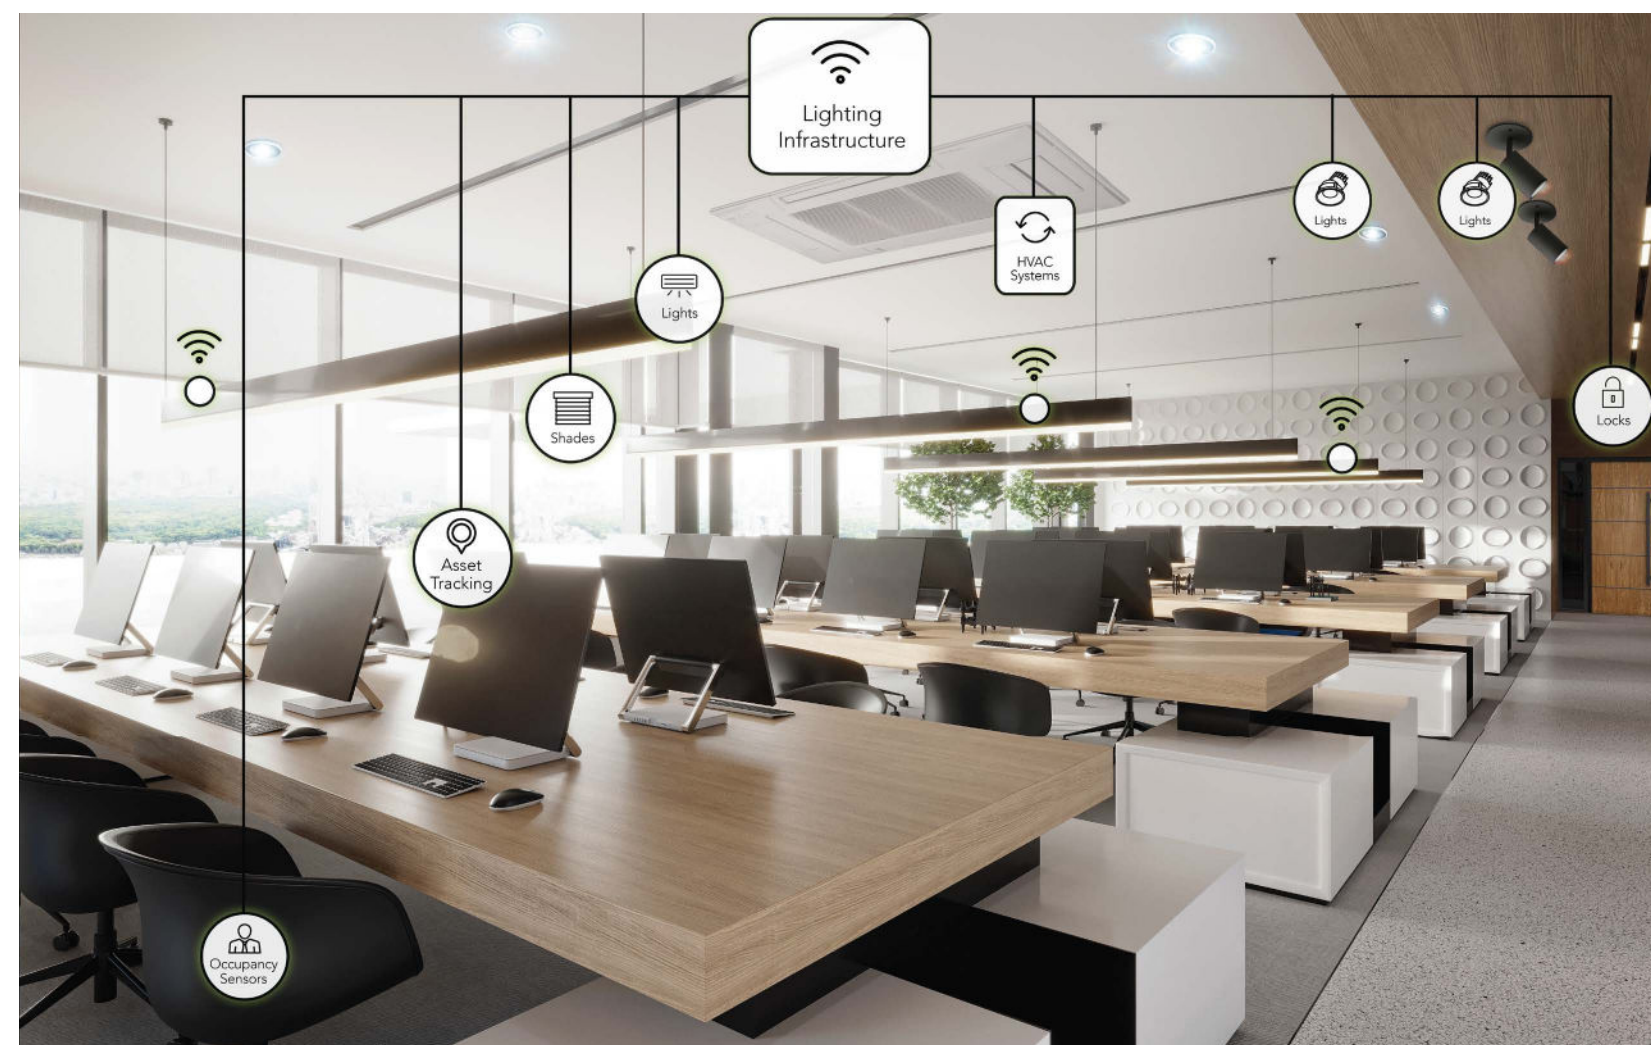

XIG Gateway

- Securely monitor and control an unlimited number of BLE devices over any geographic distance
- Monitors temperature, intensity, power consumption, input voltage, and total operating hours

Xicato's intelligent lighting solutions inspire architects, designers and building owners to create beautiful and healthier environments with smarter and connected experiences.

Provides Total Control

XLP Light Panel

Xicato's Light Panels are designed with Ultra Slim LED Lighting for color matching. Light a variety of surfaces with smooth, uniform light with Xicato's new light panels.

- Custom shapes from 2"x2" to 4'x8'
- 24VDC with 1w, 3.7w or 5w outputs
- 2700K, 3000K, 3500K, 4000K, 5000K, 6000K, 6500k (custom options available)
- Single or double face illumination

XFL Flexible LED Linear

A complete portfolio of best-of-breed flexible linear solutions that enable uniform lighting designs with options that match the distinguished Xicato color point the market craves.

- Unmatched performance for CRI, R9, Fidelity and Gamut
- Superior construction for higher reliability and heat management, including 3 oz. Cu
- 10-year warranty
- Supported by Xicato Bluetooth® Mesh Control portfolio

XDL Downlights

Designed for precision and flexibility, the XDL Recessed Downlight delivers superior light quality and intelligent controls, simplifying your projects while ensuring long-lasting performance. Up to 10-year warranty.

- Variety of light output and beam angles (1x2 SDCM)
- Different install types including retrofit, new construction, and IC Rated
- Choose from various shapes, trims, and finishes
- Optional XMesh enables for remote access and control

XTS Track Spots

Precision Spot XTS Series is an architectural 48V track head featuring Xicato Technology with Lux up to 1800lm and multiple beam spreads from 5 to 36 degrees. Compatible with Xicato XMesh Controls.

- Energy efficient 48V track
- Mechanical locking adapter
- Matte or satin finish in black or white
- Dynamic ZOOM lens 12-27 degrees
